## **WAREHOUSE in CANADA**

Our directly owned warehouse in Canada gives us full control of cost and quality. With thousands of cabinets in stock, we guarantee fast pick-up, nationwide delivery, and the most competitive B2B pricing. No franchise, no middlemen – just better margins and reliable supply for our partners.

## **Overseas Manufacturing Factory**

As Canadian designers, we established our own overseas factory to lower labour and location costs. By researching the market before production, we create unique designs that stand apart from Chinese manufacturers. While Chinese factories may be cheaper, and Canadian custom factories are more expensive — we remain competitive with both.
